

## Instructions for importing RAGC calendar or calendar entries to your iPhone or iPad

*The instructions below are for iPhone and iPad. If anyone can provide details of set up for Android devices please provide details which can them be uploaded to the web.*

### Setting up your iPhone or iPad

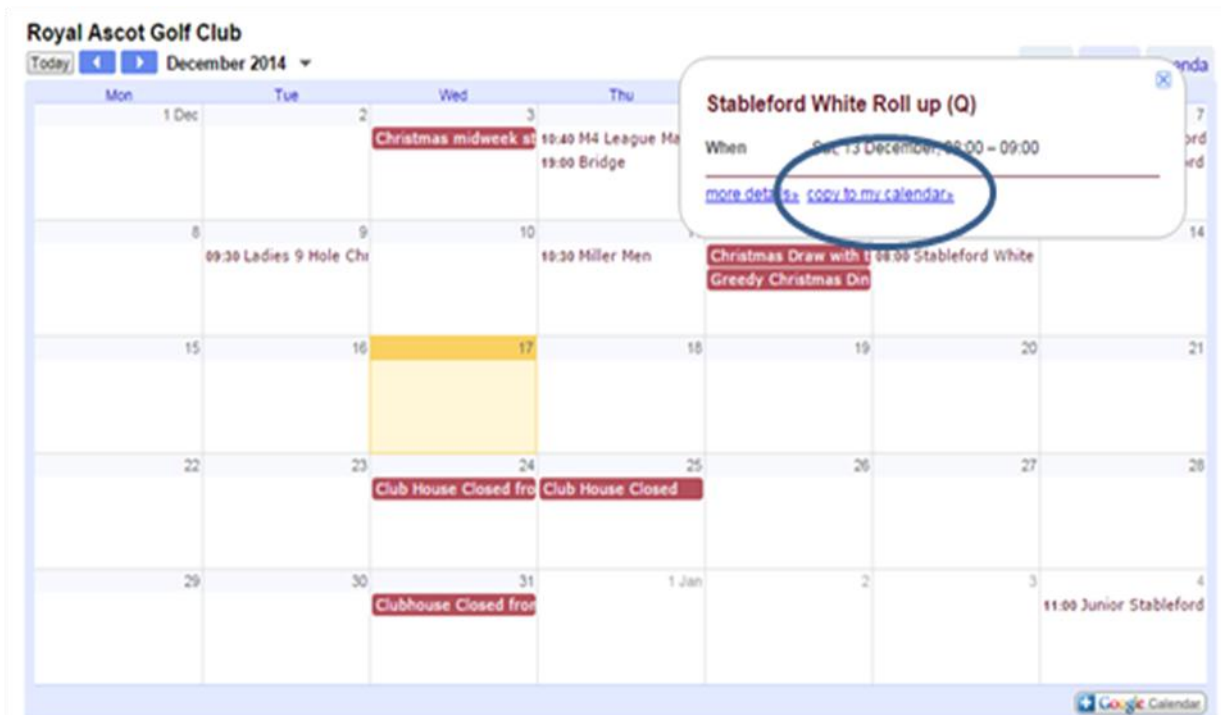

- Users will need to already have a Gmail account or will need to create one
- On your iPhone or iPad go to Settings/Mail, Contacts, Calendar
- Under accounts Add Account
- Add your Gmail account details
- When added (if Gmail is not your primary email account) untick Mail, Contacts, Notes leaving only Calendar enabled

### Transferring RAGC Calendar to your iPhone or iPad

- Open Google calendar on your iPhone or iPad
- Open the RAGC web calendar on the RAGC web site
- Click + Google Calendar if you wish to include the RAGC calendar in your personal calendar
- The RAGC Calendar will be copied to your gmail calendar and included in your iPhone/iPad calendar

## Transferring individual entries of the RAGC Calendar to your iphone or ipad

- Open Google calendar on your Iphone or Ipad
- Open the RAGC web calendar on the RAGC web site
- Click on a calendar entry you wish to include in your personal calendar
- Click on copy to my calendar
- The calendar entry will be copied to your Gmail calendar
